JetBrains Mono

Brand essence

“Ledger & Proof” treats a tech-education brand like a piece of fine print journalism: warm paper, confident serif headlines, and the precision of mono type for code and numbers. It says **credible, human, and rigorous** — not loud, neon, or generic-startup.

Personality

Editorial

Print-quality layout, generous space

Warm

Paper background, never stark white screens

Precise

Mono type for code, prices, labels

Confident

Amber accents used sparingly, with intent

Human

Plain language, real students & reviews

The signature

Two motifs carry the brand: the **amber underline** beneath section titles, and the { x } ; mark — coding braces around an x (the maths unknown), closed by a semicolon. Coding + maths, made for each other.

TAGLINE

Maths + Code, *Made* for Each Other.

Logo & wordmark

**Modern Age
Coders**

**Modern Age
Coders**

Wordmark set in Fraunces 600. The mark is an amber-tinted monogram tile (or your logo image) paired with the wordmark. On dark surfaces the wordmark turns white and the tile uses a brighter amber.

Usage

DO

Keep clear space around the lockup (≈ the height of the “M” tile).

DO

Use the wordmark in Fraunces 600 at readable sizes.

DO

Pair with the warm paper or ink background.

DON'T

Recolor the wordmark in random hues or add gradients.

DON'T

Stretch, skew, or add drop shadows / outlines.

DON'T

Place on busy photos without a solid paper/ink panel.

Color palette

Amber is the single accent. Ink is the text/structure color. Paper is the canvas — never pure white for full pages. Use status colors sparingly.

Amber

Primary accent — CTAs, links, underlines, highlights

HEX #B45309
RGB 180 83 9

Amber Bright

Accent on dark backgrounds, hover lift

HEX #D97706
RGB 217 119 6

Amber Deep

Pressed / hover state of amber buttons

HEX #8F3F08
RGB 143 63 8

Ink

Primary text, dark buttons, structure

HEX #1C1814
RGB 28 24 20

Ink Soft

Secondary text, body copy emphasis

HEX #3A332C
RGB 58 51 44

Muted

Captions, supporting text, meta labels

HEX #6B6259
RGB 107 98 89

Paper

Page background (the canvas)

HEX #FBF8F2
RGB 251 248 242

Paper 2

Subtle panels, alternating sections

HEX #F4EEE3
RGB 244 238 227

Surface

Cards & inputs that sit on paper

HEX #FFFFFF
RGB 255 255 255

Rose
"Girls who code" accent only

HEX #B4456E
RGB 180 69 110

Green
Success / positive status

HEX #1F8A55
RGB 31 138 85

Red
Errors / negative status

HEX #B0473C
RGB 176 71 60

How to use color

The 60 / 30 / 10 rule

~60% Paper

Warm background everywhere

~30% Ink

Text, headings, structure

~10% Amber

Accents only — never fill large areas

Approved combinations

Amber on white

Paper on ink

Ink on paper

DO

Reserve amber for one clear action per view.

DO

Use ink (#1C1814) for body text on paper for crisp contrast.

DON'T

Fill big blocks or whole backgrounds with amber.

DON'T

Use pure black (#000) — always ink (#1C1814).

DON'T

Use rose anywhere except girls-in-tech contexts.

ACCESSIBILITY

Ink on paper and amber on white both pass WCAG AA for text. White text on amber is for buttons/badges (large/bold) — avoid small white-on-amber body copy.

Typography

FRAUNCES — Display & headings

Weight 600 · letter-spacing -0.02em · for H1-H4, prices, pull quotes. All available in Canva.

Maths + Code

The Modern Age Coders Advantage

Made for each other.

INTER — Body & UI

Weights 400 / 500 / 600 / 700 · line-height 1.6 · paragraphs, labels, buttons, nav.

We don't just teach coding and maths. We teach you how to think, build, and solve problems that matter.

Semibold 600 — buttons & labels

JETBRAINS MONO — Code, numbers & eyebrows

Weights 400-700 · UPPERCASE + 0.18em tracking for eyebrows · code, prices, skill tags.

CODING + MATHS · AGES 6-65 · LIVE 1-ON-1

```
const skill = build(logic, creativity);

Imagery & tone

Imagery & texture

Graph paper	Faint ink grid as a background texture
Specimen card	The { x } ; mark on a bordered surface
Thumbnails	16:9, warm, real students & projects
Rounded	Cards 14–20px radius, hairline borders
Shadows	Soft, long, low-opacity ink — never harsh

Voice & tone

SOUND LIKE	Direct, encouraging, credible. “Real skills that work in the real world, at any age, any stage.”
AVOID	Hype, jargon, fake urgency, “revolutionary AI-powered” filler.
Audience	Parents, teens, college, professionals
Promise	Think, build, solve — not memorize
Proof	Real reviews, real numbers (4.9 · 547)

Canva Brand Kit cheat sheet

Paste these into Canva → Brand → Brand Kit. All three fonts are in Canva's font library — search and add them as your Brand Fonts.
